PIERRE FERRAND COGNAC

The vines that give Pierre Ferrand its distinctive style are planted on the Angeac terroir in the heart of Grande Champagne, considered the Premier Cru de Cognac. The extremely chalky soil of the rolling landscape gives the grapes the qualities and the necessary acidity to make very good wines that will produce very fine cognacs. Pierre Ferrand cognacs are distilled slowly, in small pot stills then aged on the original wine's unfiltered lees. Particularly rich in fruit aromas, the lees help to give the raw spirit body and flavor, elements that will mature as they are aged in small oak barrels. After years of aging, cellar masters practice the subtle and precise art of blending, passed on through five generations to create an incomparable cognac.
